

Prepare for storm season
now with our
**Meter-base Surge
Protection Plan.**

Act Now.

**Storm season
brings more
lightning strikes
and more risk
to your
valuable
appliances
and electronics.**

With our **Meter-base Surge Protection Plan** you can enjoy comfort, convenience, and peace of mind, knowing you have our first layer of surge protection coverage for your household needs.

You may also choose to obtain our second layer of protection by purchasing our high speed, plug-in surge protectors for the extra protection your sensitive electronics may require. These devices also protect from surges on cable, telephone, fax, internet, and satellite. Let us know if you have a need for any second layer surge suppressors.

Get Started Now

Meter-base Surge Protection costs just
\$7.99/month* plus a one-time
installation fee: \$49.95

Call **866.548.3419**

Start protection NOW!

Our service offers superior protection by combining two levels of advanced surge-stopping technology.

- First, the meter-based protector diverts large surges before they enter your home.
- Next, *optional* plug-in devices protect individual electronics for an important second line of defense.
