

NEW FERTILIZER RULES EFFECTIVE JUNE 1, 2022:

June 1 to September 30: Apply only fertilizer with zero nitrogen and zero phosphorus.

October 1 to May 31: If fertilizer has nitrogen, at least 65% N must be slow release type.

Year-round:

- Keep fertilizer at least 25 feet from natural waterbodies.
- Limit application to 3 pounds total nitrogen per 1,000 square feet.
- Use zero phosphorus unless a soil test shows a deficiency.
