

Winter Park Community Center

# Healthy Vending Machine & Concession Stand Initiative

At the Winter Park Community Center, we are committed to offering you the best experience possible when you walk through our doors, including having access to healthy food and beverage choices. With the grand opening of our Center, we are excited to announce the launch of a Healthy Vending Machine & Concession Stand Initiative. The goal of this effort is not to limit your food and drink options, but to offer healthy alternatives to some of your vending machine and concession stand favorites. Through the “Go, Slow, Whoa” awareness campaign, we’ll provide you with information to help guide you to make good decisions on food and beverage options. We believe that real lifestyle change comes from facing real life choices, and having the knowledge to make informed, smart decisions on what we eat & drink.

So look for your favorite snacks, drinks & concession stand items ... and while you're here, try a few new healthy items too! We are always open to suggestions so if there are healthy foods and drinks you'd like to see offered, please let us know.
