**appeals & assistance**

If a person decides to appeal any decision made by the Board with respect to any matter considered at this hearing, a record of the proceedings is needed to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. F.S. 286.0105

Persons with disabilities needing assistance to participate in any of these proceedings should contact the City Clerk’s Office 407-599-3277 at least 48 hours in advance of the meeting.
To: BOARD OF ADJUSTMENTS MEMBERS

From: GEORGE WIGGINS, DIRECTOR OF BLDG/LEGISLATIVE AFFAIRS

Date: January 15, 2019

Subj: ROBISON VARIANCE REQUEST, 1491 SUMMERLAND AVENUE

The applicant is requesting a variance to allow the construction of a swimming pool enclosure located 6 feet from the rear lot line whereas the required rear setback is 10 feet.

The swimming pool on this property was originally built in 1988 and complied with the required setbacks for a pool without an enclosure: 5' to rear lot line to deck and 10' to rear lot line to the water's edge of the pool. The applicants state that they have lived there 19 years and need to have the pool enclosed due to extreme sensitivity to mosquito bites. In addition the placement of a portion of the pool closer to the rear lot line requires that a screen enclosure come within inches of the spa portion of the pool leaving inadequate distance to walk around this pool at this one location.

The high point of the proposed dome shaped enclosure (14.5 feet) is at the furthest distance away for the rear lot line with it sloping downward at the rear to a height of 10.5 feet at the 6 foot setback. At the rear of this property, the applicants have a dense hedge which they estimate to be 8 feet in height to act as a buffer to the neighbor to the rear.

With respect to allowable area for the new pool enclosure, the new total area with be 1,378 square feet with an allowable area of 1,431 square feet after adding unused floor area of the home (341 square feet). No new impervious coverage is being added.

A letter of non-objection has been provided from the abutting neighbor at the rear from residents of 1500 Cardinal Court.

If the applicant is not the owner, attach a copy of the purchase contract, or option on the property, or a letter signed by the owner of record authorizing the applicant to act as an agent for the owner.

This request is for a variance from requirements of Article III, Zoning of the Land Development Code of Winter Park, Section 58-71, Subsection ( ), Zoning R-1AA.

State briefly (Clearly Printed or Word Processed) answers to all questions.
Note: Submit E-Mail address to have application forwarded to you for word processing.

Street address of property: 1991 Sunderland Ave
Legal description of property: Lot 14 South 41 4th of Lot 12 Blocks Winter City

Describe variance request: 40 into a 10 ft rear setback for a pool

*This section may be left blank for completion by city staff*
Residential Fee-$200.00 /Commercial, Multi-Family Fee-$400.00 payable upon submission of application. (The fee is doubled for after-the-fact requests.) Applicants tabled at the request of the applicant, within 10 days of the Planning and Zoning meeting or Board of Adjustment meeting will be charged for addition advertising and notification costs, plus $100.00.
What are the special conditions and circumstances, peculiar to the land, structures or buildings involved?

Applicants purchased home with existing pool and deck.

How long have you owned the property? 1999

How long have you occupied the property? 1995

What rights or privileges commonly enjoyed by other properties in the same zoning district will the applicant be deprived of because of enforcement of the Zoning Ordinance?

Pool & Deck were approved by City in 1998.

Homemade_select_to_screen_in_exiting_deck_and_not_add_any_additional_area.

Describe fully the hardship (from zoning requirements) upon which this request is based, be specific in describing the hardship and give all reasons explaining why you need to vary from the Zoning Code requirements. Note: Financial reasons are not considered a hardship.

Medical: Extreme Hypersensitivity to Mosquito bites

Pool edge is on setback, need space between waters edge & screened wall to get around pool.

Will applicant accept a limited variance? For example: Height, lengths, position, etc. of signs, fences, shrubbery, enclosures of structures or carports, parking spaces, etc? If so, to what extent?

Only need 4 sq ft not full 70 sq

Variance Narrative
David Robison
1491 Summerland Ave.
Winter Park, Fl.

Requesting an approval of 4 feet into a 10 foot rear setback for a pool enclosure on existing slab to have ingress, egress around pool waters edge that was built by previous Owner in 1988. Also, this requested encroachment is for only 27 of the 100 feet across the back of the property.

The main reason for this request is because of a hypersensitivity to mosquito bites by Mother and Daughter, as well as needing access around pool waters edge on existing slab.

As seen in photos, there are high foliage walls on side and rear walls of proposed area and the neighbors adjoining the proposed encroachment have signed a letter of consent (attached).

The proposed pool enclosure was designed to take up the minimum amount of encroached area and with the surrounding walls and foliage would be virtually unnoticed.
Date: 12/19/18

To: City of Winter Park, Building Dept and Florida Pool Enclosures

From: Garland and Lisa Gould

Re: e.g. Setback for Pool Enclosure

To Whom it Concerns,

- We reside at 1500 Cardinal Court and share a common property line at the back of our lot with our neighbors of more than 15 years, David and Deborah Robison at 1491 Summerland Avenue.
- The Robisons have submitted application with the city to build a pool enclosure and that screen wall closest to our property line is going approximately 4 feet into the 10-foot setback.
- The screen wall will be significantly blocked by our existing hedge and fence plus the Robison's plant covered lattice screen, both of which are over 8 feet tall and run the entire length of the proposed pool screen wall.
- We do not have an issue with this minor variance.

**Front Lot Area:**

**NOTES:**

1. Windsong & Waterbridge may use these standards, except lot types A, B, & C in Windsong. Provisions on side articulations & accessory bldgs are mandatory.
2. Lot width measured at the front bldg line across lot. The bldg line is located at the required front setback for vacant lots or front bldg wall closest to the street of existing homes. For unusual (pie) shaped lots, an average lot width may be utilized as measured between the front setback line and the required rear setback line or shall be determined by the Building Director. For a proposed home, determine the front setback as described on page 2.
3. Submerged lands or land across the street shall not be included.
4. Percentage based on the lot area.
5. One story homes with a sloping roof, 12:12 or less, may utilize the maximum F.A.R. and may provide roof dormers, 8 ft. maximum width and 2.5 ft. back from the required setback, occupying 45% of roof area within the same roof plane.
6. Area forming a room behind 2nd floor walls shall be included in the gross floor area.
7. See page 3 on how to achieve maximum F.A.R.
8. Vaulted and cathedral ceiling areas count twice if the height from the floor to the ceiling is 17.5 feet or greater.
9. The area of open front porches and entries may be excluded from the gross floor area subject to a maximum area of 400 square feet. The area within an open or screened rear and/or side porches, lanai, porte cochere or other covered areas may be excluded from the gross area up to 500 sf of floor area. On 2nd floor, rear and/or side porches shall have an exterior sides that are 75% open in order to utilized up to 300 sf of the total 500 sf excluisble gross floor area.
10. Any area not already used in the permitted floor area ratio (FAR) may be added to this 8% for additional screened pool enclosure area.
11. These columns only apply to existing homes.

FROM: GEORGE WIGGINS, DIRECTOR OF BLDG/LEGISLATIVE AFFAIRS

DATE: JANUARY 15, 2019

SUBJ: ATKINSON VARIANCE REQUEST, 900 NORTH PARK AVENUE

The applicant is requesting variances to allow the construction of a room addition and a garage conversion into a cabana with a minor addition on a property which currently has a nonconforming side setback of 9.9 feet in lieu the required setback of 13 feet to the south side lot line.

The request includes increasing the height of an existing 7 foot high masonry wall and roofing this area as a bathroom and closet area of with 143 square feet of space. In addition, the applicant proposes to enclose with a glazed opening an existing open area under roof line on a rear single car garage. The remainder of the garage will also be converted into a pool cabana.

Overall, the request is unusual in that there’s no exterior additions to the existing home and rear garage building but only enclosures that exceed the floor area ratio based on having an existing nonconforming 9.9 foot side setback to a portion of the home. The nonconforming side setback limits the floor area ratio to 33% which for this lot size (18,050 sf) is a limit of 5,956 square feet. The total new area is 239 square feet.

One factor that minimizes this request is that the portion of the home which has the 9.9 foot side setback is only 20 feet in length on the south side of the property representing a small portion of the entire home. The remainder of the home is within inches of meeting the required setbacks.

No letters has been provided for this request at this point in time.

Signature of Applicant:  Claire Atkinson  Date:  12/21/18  Name of Applicant (PRINT):  Jeanne Atkinson

Variance app 12/00 - Instructions, and setback sheet - attached.
What are the special conditions and circumstances, peculiar to the land, structures or buildings involved?

Applicant's Response: Applicant wishes to create a "mother in law" suite on the first floor of the house for an elderly parent (95 yrs. old) that has mobility challenges. The house is constructed in such a manner that there are no other locations on the ground floor for an additional living space save for a front room which needs a small expansion to provide adequate accommodation. The room would be expanded northerly to construct a bathroom and closet area. The expansion would occur totally within the existing wall locations on the north end of the house. The walls presently exist with a small roof overhang as shown in the picture attached to this application. The small overhang would be replaced by a roof to be aesthetically consistent with the rest of the house.

The other modification would be to glass in the front of a small walkway that accesses a free standing single car garage which will be converted into a cabana and a seating area where the walkway presently exists. This would allow the aging parent to spend time in the pool area within a climate controlled environment.

What rights or privileges commonly enjoyed by other properties in the same zoning district will the applicant be deprived of because of enforcement of the Zoning Ordinance?

Granting the request will not confer on the applicant a privilege that is denied by the zoning code to other lands. Indeed, granting the request will be in harmony with the general purpose and intent of the zoning code. Additionally, the granting of a variance must not be injurious to the neighborhood, or otherwise detrimental to the public welfare. The variance provides little to no visual impact from the outside of the property.

Describe fully the hardship (from zoning requirements) upon which this request is based, be specific in describing the hardship and give all reason explaining why you need to vary from the Zoning Code Requirements. Note: Financial reasons are not considered a hardship.

It is applicant's understanding that the maximum gross square footage allowed on the subject property has been allocated to the structure as designed. Part of the structure that existed at purchase are the walls and small overhang located on the front of the residence. Applicant will be able to enclose the area that now exists and to provide a proper roof if a variance is granted to a side set back line. The Winter Park Code would allow applicant to build slightly more gross floor area and would allow the enclosure of the room as set forth above. A review of the pictures submitted with this application shows the minor nature of the improvement and the consistence with the existing architecture.

Will applicant accept a limited variance? For example: height, lengths, positon, etc. of signs, fences, shrubbery, enclosures of structures or carports, parking spaces, etc.? If so, to what degree:

Yes, applicant will accept all reasonable conditions.

</tr>
</tbody>
</table>

**Notes:**

1. Any building wall that exceeds 12 ft. in height measured from natural grade to top of wall plate or truss kneewall must meet the setbacks for the 2nd floor.
2. Accessory buildings' maximum side wall height (natural grade to roof sheathing) shall not exceed 10.5 ft. and interior side setback is 5 ft. minimum (no gable end allowed) for garages up to 600 sf, pool cabana up to 500 sf and all other accessory buildings up to 320 sf. Other accessory buildings used for habitation shall meet setbacks of the main residence.
3. Rear setbacks for properties abutting non-residential zoned, R-3/R-4, or a permanent stormwater retention area over 25 ft. in width may be 10 ft. For lots that are 75ft deep or less a first floor setback of 10ft and a second floor setback of 25ft is allowed. For lots which are 105ft deep or less a first floor setback of 15ft and a second floor setback of 30ft is allowed.
4. Accessory buildings: garage/carport up to 800 sf, pool cabana up to 500 sf and storage bldg up to 320 sf - minimum rear setback shall be 10 ft. Other accessory buildings used for habitation shall meet setbacks of the main residence.
5. The rear setback may be reduced to 25 ft. for two-story components when those consist of a second story loft or mezzanine that is within the normal scale and 18-ft max height of a typical one-story structure.
6. Require Planning & Zoning commission approval. Lakefront setback is based on the average setback established by the adjacent residences within 200 ft. or 50 ft., whichever is greater, measured from ordinary high water line.
7. Setbacks given are measured on the side yard adjacent to the street & lots over 75 ft. with 1st and 2nd floor setbacks of 25 ft. may reduce the rear setback by 5 ft. on each floor.
8. Building height is the vertical distance measured from the average elevation of the existing lot grade measured directly adjacent to the front of the building or proposed building.
9. No building or portion thereof shall exceed 30 ft. in height except for homes with a roof slope of 8:12 or greater may be permitted to have 2 ft. additional building height.
10. Accessory building that exceeds 18 ft. in height shall meet the same setbacks as the principal building on the property.
11. Properties or lots with at least 80 ft. of width at the building line are permitted to have a building height of 35 ft. if the side setbacks are increased to 20 ft. at 30 ft. above the side lot line. Exception: homes with a roof slope of 8:12 or greater are permitted 2 ft. of additional building height.
12. Properties or lots exceeding 80,000 sq.ft. in size with at least 100 ft width at the building line may be permitted building heights of 40 ft. if side setbacks are increased to 35 ft. to the portion of the roof over 30 ft. in height.
13. This column only applies to existing homes.
