Historic Preservation Ordinance

The Historic Preservation Board began its review of the existing Historic Preservation Ordinance in 2012 with some proposed housekeeping amendments. At the direction of the City Commission in July 2013, the Planning staff has been working on completing the seven tasks assigned by the City Commission as part of this review including at least 20 meetings of the HPB considering amendments and direction. This information as well as the significant input from the community ad-hoc committee, public comments received at the two public forums and well as at the numerous workshops and meetings by the HPB all had a place in this draft.

There are numerous changes proposed to the Ordinance. Significant changes include:

- Updating the objectives and purpose of the ordinance
- Additional definitions and terms providing clarification to the overall ordinance
- Proposed changes in the membership makeup of the Board
- Greater detail in designation criteria for both individual designations and designations of historic districts
- Increased public notice of historic districts including additional mailings, newspaper advertising and posting on the city’s website
- A proposed change to the percentage of approval by property owners in a defined area considering a historic district designation
- A proposed change in who can nominate an individual resource for a designation
- Changes to the timeframe for a demolition permit for properties that are listed on the Florida Master Site File Survey

In addition, staff has included a resolution with a list of proposed incentives that may encourage some property owners to consider designating their properties or participating in a historic district. This list is accompanying the resolution for consideration.

The draft is very similar to the one that the Board reviewed at the September 19th meeting. The City Attorney has made some modifications to the preamble to reflect a more well-rounded approach to the ordinance as well as marking sure that the changes are all in keeping with the law and our ordinance process. The city attorney will review these changes with the Board at the meeting on October 14th.

Staff recommends approving this ordinance and the accompanying resolution with the incentives in its current form and transmitting it to the City Commission for their review and comment.

The schedule of informational meetings will also be published in a newspaper of general circulation and posted on the city's web site. The city shall then facilitate conferences with property owners within the nominated district to discuss the proposed district.

c. After informational meetings have concluded, the city will mail a summarized final historic designation report to every property owner of record in the nominated district as of that date. The report will describe the voting process including a 14 day deadline to respond. The final report, voting process and deadline will also be posted on the city's web site. Property owners of record will be polled, with each property representing one vote. Upon receipt of a favorable vote representing the ownership of two-thirds fifty-eight percent (58%) of the properties within the nominated proposed district, a historic designation report shall be forwarded to the HPCB recommending
approval or disapproval of the nominated area as a historic district based upon the vote received and citing any other specific criteria for the decision. A historic district that is commemorative in nature only and whose designation report does not require design review will not require a vote of the property owners, but shall require a public hearing as described in section 58-457(2) d.

The designation report shall include the historic context, proposed boundaries, contributing and non-contributing elements, a staff recommendation and the results of listing which may include guidelines for review, and appropriate incentives. The HPB shall review and render a decision on all applications for special certificates of review for any proposed exterior alterations, demolitions, new construction or relocations within the boundaries of designated historic districts. The HPCB may approve, approve with conditions—recommendations, or deny an
application. For reconstructed buildings that have been permitted pursuant to section 58-4802, the provisions of this section shall still apply.

(Ord. No. 2688-06, § 1, Exh. A (58-445), 10-9-06)

Sec. 58-469. - Guidelines for review.

In adopting guidelines for review, it shall be the intent of the HPCB to preserve the exterior historic characteristics of the landmark, resource or district, and to promote maintenance, restoration, adaptive reuses appropriate to the property, and compatible contemporary designs which are harmonious with the exterior architectural and landscape features of neighboring buildings, sites, and streetscapes. Guidelines shall also serve as criteria for staff to make decisions, as permitted by the HPCB, regarding applications for standard administrative certificates of review.

(1) The U.S. Secretary of the Interior's Standards for Rehabilitation as periodically revised in 1990 are generally the standards and guidelines by which applications for any certificate of review for historic buildings, sites, or districts are to be measured and evaluated. The HPCB may recommend additional standards to preserve and protect special features unique to the city or may recommend amending any existing guidelines to the city commission.

(2) Variances to achieve the design review standards for historic preservation may be granted from the land development code requirements as may be appropriate to achieve the design review standards for historic preservation for the purposes of this ordinance, provided the variance does not negatively affect the character of the area and with good cause shown. These variances may include those for building height, side, rear and front setbacks, building coverage, floor area ratio, impervious coverage, storm water retention, and walls and fences. Building code exemptions may be granted subject to the guidelines of the Florida Building Code for qualified historic buildings or structures. Additional information to justify variances and exemptions may be needed.

a. When a variance or exception is considered, the application shall comply with the notice standards listed in subsection 58-88(e)(2) 58-89(c)(2).

b. All variance requests through the HPCB-design-certificate of review process shall be limited to properties with individual landmark, resource or historic district designation. This landmark, resource or district designation must be completed before issuance of a building permit for the work that requires a variance.

c. The appeal of a decision to grant or deny a variance by any person aggrieved by the decision of the HPCB shall be taken to the city commission after following the notice criteria of subsection 58-86(e)(1) 58-89(c)(2) if filed within 15 days of the date of the decision by the HPCB.

(3) The HPCB may also allow garage apartments or accessory cottages to be determined to be conforming uses on designated historic landmarks or resources, or to on properties in a designated historic district.

a. Historic designation must be completed before the issuance of a building permit or approval for the construction, re-establishment or construction of a new garage apartment or accessory cottage.

b. Building setbacks shall be determined by the HPCB, however no garage apartment or accessory cottage shall be closer than five feet to a rear or side line, unless such setback currently exists, or may be in a required front setback.

c. It is desirable that garage apartments or accessory cottages not exceed 750 square feet of living area. The HPB may reduce or enlarge this square foot limitation depending on the configuration or size of the property. Garage apartments or accessory cottages shall not exceed 1,000 square feet in size.
d. Conversion of any existing garage space shall not be allowed, but an existing garage may be enlarged in height or ground area to accommodate the garage apartment. Garage apartments or accessory cottages may utilize a separate electric meter and utility connections contingent upon meeting the parking requirements for an accessory dwelling unit.

e. Tenants must be provided on-site parking space(s) behind the front setback of the principal residence. All required parking spaces must be accessed independently and shall not require moving any vehicle to allow another vehicle to enter or exit from the property. All vehicles shall be parked on-site in spaces conforming to setbacks so that no regular daytime or overnight parking occurs on city streets. Violation of these terms and conditions may result in enforcement action by Code Compliance. Will be deemed sufficient grounds for the code enforcement board to order the discontinuance of the garage apartment or accessory cottage as a secondary living unit along with other penalties and remedies at their discretion.

(4) Each designated historic district may adopt specific district guidelines for design review based upon the U.S. Secretary of the Interior's Standards for Rehabilitation as periodically revised in 1990 subject to final approval by the HPCB.

(5) Local guidelines for design review may be adopted based upon the U.S. Secretary of the Interior's Standards for Rehabilitation as periodically revised in 1990.

The planning and community development director or his/her designee may approve, approve with conditions, or deny certain types of permit applications for alterations or additions allowed by the HPB and based upon the standards in Section 58-469 to an individually designated property or property located in a designated historic district. The planning and community development director or his/her designee is not required to grant this administrative review and may require review by the HPB. Further, the HPCB may delegate the authority to the planning and community development director or his/her designee, appropriate staff members, to review and grant standard-administrative certificates of review without referral to the HPB and without a public hearing in the case of certain types of applications, which the HPCB shall determine in advance. If the applicant wishes to appeal planning and community development director's or his/her designee's decision, a complete certificate of review application for the project will then be placed on the HPB agenda.

Sec. 58-512. - Duration of tax exemptions.

Any exemption granted under this section 58-511 to a particular property may remain in effect for ten years as specified in the ordinance approving the exemption. The duration of ten years may continue regardless of any change in the authority of the city to grant such exemptions or any changes in ownership of the property. In order to retain an exemption, however, the historic character of the property, and improvements, which qualified the property for an exemption, must be maintained over the period for which the exemption was granted.

(Ord. No. 2688-06, § 1, Exh. A (58-477), 10-9-06)

Sec. 58-513. - Eligible properties and improvements.

(a) Property is qualified for an exemption under this section 58-511 if:

1. At the time the exemption is granted, the property is:
   a. Individually listed in the National Register of Historic Places pursuant to the National Historic Preservation Act of 1966, as amended;
   b. A contributing property within a National Register listed district; or
   c. Individually listed in the Winter Park Register of Historic Places or noted as a contributing structure within a designated local historic district as enacted by ordinance of the city commission.

2. The HPGB has certified to the city commission that the property for which an exemption is requested satisfies subsection (a) (1) above.

(b) In order for an improvement to a historic property to qualify the property for an exemption, the improvement must be:

1. Consistent with the United States Secretary of the Interior’s Standards for Rehabilitation and/or local design guidelines for historic preservation, and

2. Determined by the HPGB to meet criteria established in rules adopted by the department of state if the city is a Certified Local Government, or by the Department of State Division of Historic Resources.

(c) Property is qualified under section 58-513(b) above if the property meets the following criteria:

1. The property must be used for commercial purposes or used by a not-for-profit organization under s. 501(c) (3) or (6) of the Internal Revenue Code of 1986; or

2. The property must be listed in the National Register of Historic Places, as defined in Florida Statutes section 267.021; or

3. Must be a local historic contributing property to a National Register Historic District; or must be a locally designated historic landmark or a contributing property within a locally designated historic district; and

4. The property must be regularly open to the public, which means that there are regular hours when the public may visit to observe the historically significant aspects of the building. This means a minimum of forty (40) hours per week, for forty-five (45) weeks per year, or an equivalent of eighteen hundred (1,800) hours per year. A fee may be charged to the public; however, it must be comparable with other entrance fees in the immediate geographic locale.
Only those portions of the property used predominantly for the purposes specified in section 58-513(c) shall receive the ad valorem tax exemption of up to fifty (50%) percent of the assessed property value. In no event shall an incidental use of property qualify such property for an exemption or impair the exemption of an otherwise exempt property. In order to retain the exemption, the historic character of the property must be maintained in good repair and condition to the extent necessary to preserve the historic value and significance of the property.

(Ord. No. 2688-06, § 1, Exh. A (58-478), 10-9-06)

Sec. 58-514. - Applications.

(a) Any person, firm or corporation that desires ad valorem tax exemption from the improvement of a historic property must, in the year the exemption is desired to take effect, file with the historic preservation staff a written application on a form approved by the Florida Department of State. Any applicable fees shall be paid at the time the application is submitted. The application must include the following information:

1. The name of the property owner and the location of the historic property.
2. A description of the improvements to real property for which an exemption is requested and the date of commencement of construction of such improvement.
3. Proof to the satisfaction of the HPCB that the property that is to be rehabilitated or renovated is a historic property under this section.
4. Proof to the satisfaction of the HPCB that the improvements to the property will be consistent with the United States Secretary of Interior's Standards for Rehabilitation and will be made in accordance with guidelines developed by the Florida Department of State.
5. Other information identified in appropriate Florida Department of State regulations.

(b) Following approval by the city commission, any person, firm or corporation who is claiming the ad valorem tax exemption provided under section 513(b) shall, on or before March 1 of each year, file an application for exemption with the Orange County Property Appraiser, describing the property for which exemption and certifying its ownership and use.

(Ord. No. 2688-06, § 1, Exh.A (58-479), 10-9-06)

Sec. 58-515. - Required restrictive covenant.

To qualify for an exemption the property owner must enter into a covenant or agreement with the city commission for the term for which the exemption is granted. The form of the covenant must be established by the Florida Department of State and must require that the character of the property, and the qualifying improvements to the property, be maintained during the period that the exemption is granted. The covenant or agreement shall be binding on the current property owner, transferees, and their heirs, successors or assigns. Violations of the covenant or agreement results in the property owner being subject to the payment of the differences between the total amount of taxes which would have been due in March in each of the previous years in which the covenant or agreement was in effect had the property not received the exemption and the total amount of taxes actually paid in those years plus interest on the difference calculated as provided in F.S. § 212.12(3).

(Ord. No. 2688-06, § 1, Exh. A (58-480), 10-9-06)
Sec. 58-516. - Review by the HPCB-historic-preservation-board.

The HPCB or its successor is designated to review applications for exemptions. The HPCB must recommend that the city commission grant or deny the exemption. Such reviews must be conducted in accordance with rules adopted by the Florida Department of State. The recommendation and the reason therefore must be provided to the applicant and to the city commission before consideration of the application at an official meeting.

(Ord. No. 2688-06, § 1, Exh. A (58-481), 10-9-06)

Sec. 58-517. - Approval by the city commission.

A majority vote of the city commission shall be required to approve a written application for exemption. Such exemption shall take effect on the January 1 following substantial completion of the improvement. The city commission shall include the following in the ordinance decision approving the written application for exemption:

1. The name of the property owner and the address of the historic property for which the exemption is granted.

2. The period of time for which the exemption will remain in effect and the expiration date of the exemption.

3. A finding that the historic property meets the requirements of this article.

DIVISION 3. - DESIGNATION OF HISTORIC LANDMARKS, RESOURCES OR DISTRICTS

Sec. 58-456. - Designation criteria.

In order to qualify as a local historic landmark, resource or district, properties must have character, interest or value as part of the historical, cultural, archaeological, aesthetic or architectural heritage of the city, state or nation. For a multiple property nomination, eligibility may be based on the establishment of historic contexts or themes that describe the historical relationship of the properties. The eligibility of any potential historic landmark, resource or district shall be supported by meeting one or more criteria based upon the National Register of Historic Places guidelines for evaluation. Properties must be at least 50 years old to be eligible for designation unless they are of exceptional importance.

(1) The National Register criteria for evaluation requires that the quality of significance in American history, architecture, archeology, engineering, and culture is present in districts, sites, buildings, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and associations and:
   a. That are associated with events that have made a significant contribution to the board patterns of our history; or
   b. That are associated with the lives of persons significant in our past; or
   c. That embody the distinctive characteristics of a type, period, or method of construction, or that represents the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or
   d. That have yielded, or may be likely to yield, information important in prehistory or history.

(2) Historic districts must meet one or more of the National Register criteria. A district shall possess a significant concentration, linkage, or continuity of sites, buildings, structures or objects united historically or aesthetically by plan or physical development.

   a. The identity of a district results from the interrelationship of its resources, which can convey a visual sense of the historic environment or be an arrangement of historically or functionally related properties. A significant concentration may be represented by 60 percent of the sites, buildings, structures or objects that contribute to the historic context of the district.

   b. A district must be a definable geographic area that can be distinguished from surrounding properties by changes such as density, scale, type, age, style of sites, buildings, structures, and objects, or by documented differences in patterns of historic development or associations. The boundaries must be based upon a shared relationship among the properties constituting the district.

(Ord. No. 2688-06, § 1, Exh. A(58-442), 10-9-06)

Sec. 58-457. - Designation procedures.

Winter Park historic landmarks, resources and districts shall be designated only as provided in this section. Properties, which meet the criteria for designation as set forth in section 58-456, shall be designated according to the following procedures:

(1) Designation of local historic landmarks and resources.

   a. Recommendations for nomination for designation of individual local historic landmarks and resources may be submitted to the planning and community development department by
the property owner, the HPC, or a city commission member who believes that the property meets the criteria for listing as set forth in section 58-456. The proposal shall include a legal description or address of the property, a brief statement regarding its historic, cultural, aesthetic or architectural significance, and must include authorization by the property owner(s). A recommendation for nomination that does not include the property owner(s) authorization shall not proceed.

b. Every proposed historic landmark or resource shall have a historic designation report prepared by the city that shall be presented to the HPC at a regularly scheduled meeting.

c. For each proposed designation of a historic landmark or resource, the City is responsible for mailing a notice of public hearing to all property owners of record on the latest Orange County tax roll within a 500-foot radius of the proposed landmark at least 15 days prior to the public hearing held pursuant to this section, however failure to receive such notice shall not invalidate the same as such notice shall also be given by publishing a copy thereof in a newspaper of general circulation in the city and county at least 15 days prior to the hearing.

(2) Local historic districts.

a. Nominations for designation of historic districts may be submitted to the planning and community development department by petition from 20 percent of the district property owners, by any member of the HPC, or by a city commission member, who believes that the district meets the criteria for listing as set forth in section 58-456. The proposal shall include a description of the proposed boundaries of the district and a brief statement explaining its historic, cultural, aesthetic or architectural significance, and a petition representing the ownership of at least 20 percent of the properties within the proposed district. Designation of historic districts shall only be considered by the HPC subsequent to meetings with district property owners and actions as described in subsections b. and c. below.

b. Prior to consideration of designation by the HPC, the city shall facilitate conferences with property owners within the nominated district to discuss the following: 1) the historic designation report, 2) proposed boundaries, 3) contributing and non-contributing buildings and elements, 4) district goals, 5) design guidelines, and 6) results of designation and incentives.

c. Upon receipt of a favorable vote representing the ownership of two-thirds of the properties within the proposed district a historic designation report shall be forwarded to the HPC. A historic district that is commemorative in nature only and whose designation report does not require design review will not require a vote of the property owners, but shall require a public hearing as described in section 58-457(2.d).

d. The nominated historic district shall have a historic designation report that shall be presented to the HPC at a regularly scheduled meeting. The designation report shall include the historic context, proposed boundaries, contributing and non-contributing elements, a staff recommendation and the results of listing which may include guidelines for review, and appropriate incentives. For each proposed designation of a historic district, the city is responsible for mailing a notice of public hearing to all property owners of record whose property is located within the boundary of the designation 15 days prior to the public hearing held pursuant to this section, however failure to receive such notice shall not invalidate the same as such notice shall also be given by publishing a copy thereof in a newspaper of general circulation in the city and county at least 15 days prior to the hearing.

(3) Decision of the historic preservation commission. If, after a public hearing, the HPC finds that the proposed local historic landmark, resource or district meets the criteria set forth in section 58-456, it shall transmit such findings to the city commission along with the recommendation that the designation be approved. The historic landmark, resource or district, shall only be recorded in the Winter Park Register of Historic Places following adoption of a resolution of the city commission approving such designation.
(4) The city commission shall further direct staff to notify the following of the action with a copy of the resolution(s) designating the historic landmark district and the adopted guidelines for review:
   • Planning and community development department (all divisions)
   • City clerk
   • Public works department
   • Owners of the affected property and other parties having an interest in the property, if known

(5) Following the published date of a public hearing before the HPC, no permits shall be issued by the building division, except for permits that do not require the review of the historic preservation commission, for any new construction, exterior alterations, moving, or demolition of the real property that is the subject matter of the recommendation, until one of the following has occurred:
   • The historic designation is enacted and a certificate of review is issued under the provisions of division 4; or
   • The historic designation is denied by the city commission; or
   • The property owner has applied for an accelerated approval of a certificate of review prior to final enactment of the historic designation; and such certificate of review has been issued under the provision of section 58-473, and the property owner has voluntarily proffered a covenant binding him to comply with all terms and conditions of the certificate of review which will cease to be effective should the city commission deny the historic designation.

(6) Historic landmarks, resources or districts shall be formed as a special overlay, which shall be placed over the existing zoning. The regulations and procedures for both the zoning district and the historic landmark, resource or district regulations shall apply.

(Ord. No. 2688-06, § 1, Exh. A(58-443), 10-9-06)

DIVISION 4. - CERTIFICATE OF REVIEW

Sec. 58-466. - Purpose.

The purpose of the certificate of review process is to assist owners of historical landmarks or resources and owners in historic districts in accordance with design guidelines, who plan to rehabilitate, restore or redevelop their property for contemporary use to achieve their goals and take advantage of incentive programs while preserving the historic character, architecture and materials, to the greatest extent possible.

(Ord. No. 2688-06, § 1, Exh. A(IV), 10-9-06)

Sec. 58-467. - Pre-application conference.

Before entering binding commitments or incurring substantial expense in the preparation of plans, surveys and other data, and before submitting an application for a certificate of review, an applicant shall confer with the city to obtain information and guidance. The purpose of such conference is to further
discuss and clarify conservation objectives and design guidelines in cases that do not conform to established objectives and guidelines. In no case shall any statement or representation made prior to the official application review be binding on the HPC, the city commission or any city departments.

(Ord. No. 2688-06, § 1, Exh. A(58-444), 10-9-06)

Sec. 58-468. - Review requirement.

The HPC shall review and render a decision during an advertised public hearing on applications for special certificates of review for any proposed exterior alterations, demolitions, or relocations of designated historic landmarks. The HPC shall review and render a decision on all applications for special certificates of review for any proposed exterior alterations, demolitions, new construction or relocations within the boundaries of designated historic districts. The HPC may approve, approve with recommendations, or deny an application. For reconstructed buildings that have been permitted pursuant to section 58-480, the provisions of this section shall still apply.

(Ord. No. 2688-06, § 1, Exh. A(58-445), 10-9-06)

Sec. 58-469. - Guidelines for review.

In adopting guidelines for review, it shall be the intent of the HPC to preserve the exterior historic characteristics of the landmark, resource or district, and to promote maintenance, restoration, adaptive reuses appropriate to the property, and compatible contemporary designs which are harmonious with the exterior architectural and landscape features of neighboring buildings, sites, and streetscapes. Guidelines shall also serve as criteria for staff to make decisions, as permitted by the HPC, regarding applications for standard certificates of review.

(1) The U.S. Secretary of the Interior's Standards for Rehabilitation as revised in 1990 are the standards by which applications for any certificate of review for historic buildings, sites, or districts are to be measured and evaluated. The HPC may recommend additional standards to preserve and protect special features unique to the city or may recommend amending existing guidelines to the city commission.

(2) Variances may be granted from the land development code requirements as may be appropriate to achieve the design review standards for historic preservation. These variances may include those for building height, side, rear and front setbacks, building coverage, floor area ratio, impervious coverage, and walls and fences. Building code exemptions may be granted subject to the guidelines of the Florida Building Code for qualified historic buildings or structures:

a. When a variance or exception is considered, the application shall comply with the notice standards listed in subsection 58-88(c)(2).

b. All variance requests through the HPC design review process shall be limited to properties with individual landmark, resource or district designation. This landmark, resource or district designation must be completed before issuance of a building permit for the work that required a variance.

c. The appeal of a decision to grant or deny a variance by any person aggrieved by the decision of the HPC shall be taken to the city commission after following notice criteria of subsection 58-88(c)(1) if filed within 15 days of the date of the decision by the HPC.

(3) The HPC may also allow garage apartments or accessory cottages to be determined to be conforming uses on designated historic landmarks or resources, or to properties in a designated historic district. Historic designation must be completed before the issuance of a building permit or approval for the construction, re-establishment or construction of a new garage apartment or accessory cottage. Building setbacks shall be determined by the HPC, however no garage
apartment or accessory cottage shall be closer than five feet to a rear or side line, unless such setback currently exists, or in a required front setback. Garage apartments or accessory cottages shall not exceed 1,000 square feet in size. Conversion of any existing garage space shall not be allowed, but an existing garage may be enlarged in height or ground area to accommodate the garage apartment. Garage apartments or accessory cottages may utilize a separate electric meter and utility connections. Tenants must be provided on site parking space(s) behind the front setback of the principal residence. All required parking spaces must be accessed independently and shall not require moving any vehicle to allow another vehicle to enter or exit from the property. All vehicles shall be parked on-site in spaces conforming to setbacks so that no regular daytime or overnight parking occurs on city streets. Violation of these terms and conditions will be deemed sufficient grounds for the code enforcement board to order the discontinuation of the garage apartment or accessory cottage as a secondary living unit along with other penalties and remedies at their discretion.

(4) Each designated historic district may adopt specific district guidelines for design review based upon the U.S. Secretary of the Interior's Standards for Rehabilitation as revised in 1990 subject to final approval by the HPC.

(5) Local guidelines for design review may be adopted based upon the U.S. Secretary of the Interior's Standards for Rehabilitation as revised in 1990.

(Ord. No. 2688-06, § 1, Exh. A(58-446), 10-9-06)

Sec. 58-470. - Forms.

Applications for certificates of review will be made on forms approved and provided by the historic preservation commission.

(Ord. No. 2688-06, § 1, Exh. A(58-447), 10-9-06)

Sec. 58-471. - Delegation of review authority.

HPC may delegate the authority to appropriate staff members to review and grant standard certificates of review without referral to the HPC and without a public hearing in the case of certain types of applications, which the HPC shall determine in advance.

(Ord. No. 2688-06, § 1, Exh. A(58-448), 10-9-06)

Sec. 58-472. - Standard certificates.

Based upon the standards for rehabilitation, the designation report, a complete application for standard certificates of review, and any additional plans, drawings or photographs to fully describe the proposed alteration, the city shall within 15 business days from the date a complete application has been filed, approve, approve with conditions or deny the application for a standard certificate of review. The findings of the city shall be mailed to the applicant within three days of the city's decision accompanied by a statement in full regarding the decision. The applicant shall have an opportunity to challenge the decision by applying for a special certificate of review within 15 days of the findings.

(Ord. No. 2688-06, § 1, Exh. A(58-449), 10-9-06)

If the proposed change is not in accordance with guidelines, standards, or certificate of review previously approved by the HPC, a new application for a special certificate of review shall be required.

(6) There are definite plans for reuse of the property if the proposed demolition is carried out, and there is an explanation of what the effect of those plans will be on the character of the surrounding area.

(b) In cases where new construction, excavation, tree removal or any other activity may disturb or reveal an identified interred archaeological site, the HPC may issue a certificate of review with a delayed effective date up to 60 days. During the delay period, the applicant shall permit the subject site to be examined under the supervision of an archaeologist approved by the HPC. A certificate of review may be denied if the site were of exceptional importance and such denial would not unreasonably restrict the primary use of the property.

DIVISION 6. - TAX EXEMPTIONS FOR HISTORIC PROPERTIES

Sec. 58-511. - Scope of tax exemptions.

A method is hereby created for the city commission to allow tax exemptions for the restoration, renovation or rehabilitation of historic properties. The exemption may apply to 100 percent of the assessed value of all improvements to historic properties, which result from restoration or rehabilitation made on or after the effective date of an approved application. The exemption applies only to taxes levied by the city. The exemption does not apply to taxes levied for the payment of bonds or to taxes authorized by a vote of the electors pursuant to Section 9(b) or Section 12, Article VII of the Florida Constitution. The exemption does not apply to personal property.

(Ord. No. 2688-06, § 1, Exh. A(58-476), 10-9-06)

Sec. 58-512. - Duration of tax exemptions.

Any exemption granted under this section to a particular property may remain in effect for ten years as specified in the ordinance approving the exemption. The duration of ten years may continue regardless of any change in the authority of the city to grant such exemptions or any changes in ownership of the property. In order to retain an exemption, however, the historic character of the property, and improvements, which qualified the property for an exemption, must be maintained over the period for which the exemption was granted.

(Ord. No. 2688-06, § 1, Exh. A(58-477), 10-9-06)

Sec. 58-513. - Eligible properties and improvements.
(a) Property is qualified for an exemption under this section if:

(1) At the time the exemption is granted, the property is:

   a. Individually listed in the National Register of Historic Places pursuant to the National Historic Preservation Act of 1966, as amended;
   
   b. A contributing property within a National Register listed district; or
   
   c. Individually listed in the Winter Park Register of Historic Places or noted as a contributing structure within a designated local historic district as enacted by ordinance of the city commission.

(2) The HPC has certified to the city commission that the property for which an exemption is requested satisfies subsection (a)(1).

(b) In order for an improvement to a historic property to qualify the property for an exemption the improvement must be:

(1) Consistent with the United States Secretary of the Interior's Standards for Rehabilitation and/or local design guidelines for historic preservation, and

(2) Determined by the HPC to meet criteria established in rules adopted by the department of state.

(Ord. No. 2688-06, § 1, Exh. A(58-478), 10-9-06)

Sec. 58-514. - Applications.

Any person, firm or corporation that desires ad valorem tax exemption from the improvement of a historic property must, in the year the exemption is desired to take effect, file with the historic preservation staff a written application on a form approved by the Florida Department of State. All applicable fees shall be paid at the time the application is submitted. The application must include the following information:

(1) The name of the property owner and the location of the historic property.

(2) A description of the improvements to real property for which an exemption is requested and the date of commencement of construction of such improvement.

(3) Proof to the satisfaction of the HPC that the property that is to be rehabilitated or renovated is a historic property under this section.

(4) Proof to the satisfaction of the HPC that the improvements to the property will be consistent with the United States Secretary of Interior's Standards for Rehabilitation and will be made in accordance with guidelines developed by the Florida Department of State.

(5) Other information identified in appropriate Florida Department of State regulations.

(Ord. No. 2688-06, § 1, Exh. A(58-479), 10-9-06)

Sec. 58-515. - Required covenant.

To qualify for an exemption the property must enter into a covenant or agreement with the city commission for the term for which the exemption is granted. The form of the covenant must be established by the Florida Department of State and must require that the character of the property, and the qualifying improvements to the property, be maintained during the period that the exemption is granted. The covenant or agreement shall be binding on the current property owner, transferees, and their heirs, successors or assigns. Violations of the covenant or agreement results in the property owner being subject to the payment of the differences between the total amount of taxes which would have been due in March in each of the previous years in which the covenant or agreement was in effect had the
property not received the exemption and the total amount of taxes actually paid in those years plus interest on the difference calculated as provided in F.S. § 212.12(3).

(Ord. No. 2688-06, § 1, Exh. A(58-480), 10-9-06)

Sec. 58-516. - Review by historic preservation commission.

The HPC or its successor is designated to review exemptions. The HPC must recommend that the city commission grant or deny the exemption. Such reviews must be conducted in accordance with rules adopted by the Florida Department of State. The recommendation and the reason therefore must be provided to the applicant and to the city commission before consideration of the application at an official meeting.

(Ord. No. 2688-06, § 1, Exh. A(58-481), 10-9-06)

Sec. 58-517. - Approval by the city commission.

A majority vote of the city commission shall be required to approve a written application for exemption. Such exemption shall take effect on the January 1 following substantial completion of the improvement. The city commission shall include the following in the ordinance approving the written application for exemption:

1. The name of the property owner and the address of the historic property for which the exemption is granted.

2. The period of time for which the exemption will remain in effect and the expiration date of the exemption.

3. A finding that the historic property meets the requirements of this article.

(Ord. No. 2688-06, § 1, Exh. A(58-482), 10-9-06)
Historic Preservation Incentive Background

**Justification.** Since a historic preservation article was added to Winter Park’s Land Development Code in 2001, the City has offered incentives to individual owners who list their properties in the Winter Park Register of Historic Places and owners in designated local historic districts. Under the code, individual owners are responsible for bringing their property forward for listing in the Winter Park Register of Historic Places, and the city wants to encourage this for the welfare of the community. The many and varied benefits of preserving community’s historic properties has been widely documented, and for a city that is recognized for its special sense of place like Winter Park, it is especially important to preserve and promote its modest number of character defining historic resources.

Preserving and advocating for Winter Park’s historic properties is consistent with Comprehensive Plan Future Land Use Objective 1.3.12. Winter Park’s historic downtown and neighborhoods distinguish it from surrounding cities and set it apart as a cultural tourism destination. The historic development of Winter Park provides the foundation for the city’s excellent quality of life for its residents. The community has benefited from the protection of historic resources while accommodating beneficial growth and revitalization.

Recognizing that Winter Park’s historic resources are unique assets for the entire community, the existing and proposed incentives offer a variety of programs to maximize the public and private benefits of preservation. Incentives encourage appropriate preservation practices, and support effectively keeping historic resources in active use. Public policies that favor preservation and financial and technical benefits that offset the necessary regulation that comes with historic designation encourage owners to maintain and preserve their vintage properties.

**Recommended Incentives.** Though the historic preservation program first adopted in 2001, Winter Park provides assistance to meet the needs of properties listed in the Winter Park Register of Historic Places. The task assigned by the City Commission includes recommending additional incentives. All the existing and proposed incentives apply to buildings listed in the Winter Park Register of Historic Places to ensure that public services and funds are used for the preservation of historic properties. The variety of existing and proposed incentives falls into four general categories:

- Technical
- Educational/Promotional
- Development
- Financial
It will not be possible to immediately implement all the proposed incentives, but the recommendations can be phased in as policies, programs and funding mechanisms are developed further following direction from the City Commission. Some new incentives can be implemented quickly; relying on staff time and expertise and low budget impacts.

**Technical Assistance.** Some assistance is both educational and technical such as providing incentives property owners with information and staffs’ expertise relating to the maintenance, repair, rehabilitation or reuse of designated historic properties. At modest cost, a resource guide and library of materials for the maintenance, repair and restoration of historic properties can be made available to the public. Staff technical expertise could be made available to inspect historic properties, develop building assessments and help develop preservation plans.

**Educational/Promotional.** The existing plaque program has proved very popular with owners and builds awareness of the city’s variety of historic resources. A newsletter similar to the Lakes & Waterways newsletter would spotlight different historic resources and aspects of local history as well as provide information and advice to the owners of historic properties. Self-guided walking tours of downtown and residential neighborhoods could be developed using technology such as QR codes. Regular walking tours led by staff and volunteers could also be offered to build awareness and appreciation of local history and architecture. Educational programs could also explain how the “greenest” building is the one already existing, and how to improve the sustainability of historic buildings.

**Development.** The ability to add or activate an accessory dwelling unit such as a garage apartment has been fairly popular. It not only offers owners an income producing opportunity, but it creates additional housing opportunities while preserving historic resources. The existing ordinance allows owners of historic properties to make variance requests to the Historic Preservation Board for appropriate designs for additions. Historic properties often do not meet current zoning requirements but don’t meet a hardship definition, thus appropriate additions require a variance. This has been attractive to owners as a means to keep historic properties in contemporary use, and streamlines the certificate of review process.

**Financial.** The City does not charge for listing properties on the Winter Park Register of Historic Places or for a certificate of review. The existing local code and state statutes allow tax valorum tax benefits for major restoration of historic properties that would otherwise add to taxable value. Given the limits on increasing taxes on homestead properties and the paperwork procedures, this has not attracted consideration. The proposed new ad valorem tax credit would apply to a portion of the taxes paid by a well preserved historic commercial or multi-family building in public view. The amount of local tax reduction would be made on a case by case basis.

The city could rebate the portion of building permit fees charged for historic property projects as an incentive to rehabilitation. The city can and has received the donation of historic façade easements which may allow owners a federal tax benefit. The city could also explore the option to buy preservation easements that would permanently protect historic properties but in that case would not include tax benefits for owners. The city could also offer rehabilitation grant for property improvements. The grants could focus on electrical system, plumbing, heating and cooling and fire suppression to ensure the longevity and safety of historic structures. The city could offer electric undergrounding to historic
property owners at no charge. Historic districts could be offered period appropriate decorative streetlights at no charge.

The City could consider a transfer of development rights (TDR) program for historic commercial properties in the downtown area. Policies would have to be developed to determine what properties have development potential to transfer, and a receiving area to accept the additional development would have to be determined. For exceptional historic properties that are threatened, the City could buy them and resell with a preservation plan to an appropriate owner.

The new financial incentives could be funded through a historic preservation reinvestment fund dedicated to providing financial assistance to designated historic properties. The funds could come from a small fee charged to new construction and/or an annual budget.
