NEW BUSINESS

Introduction of New Asst. Electric Operations Manager
Mr. D’Alessandro introduced Kara Purdy, new Asst. Operations Manager for Winter Park Electric Utility. The Board and staff introduced themselves.

Definition for Work Triggering Underground Residential Service Wires
Mr. Stenger introduced for discussion an ordinance revising the definition of work to trigger undergrounding residential service wires. He explained the current process, reasons for recommending the change, and suggested changes to the verbiage in the ordinance. The Board discussed the proposed changes, no action was taken. Mr. Stenger will bring back additional information to address their concerns.

ACTION ITEMS

Calculations to Accelerate Undergrounding
Mr. Warren presented additional undergrounding information including initial estimate, initial estimate – assumptions, underground projects and challenges with engineering all projects. The Board discussed options to accelerate undergrounding, no action was taken.

Update on Reclaimed Water
As requested by the Board Mr. Zusi provided an update on the reclaimed water program including
components, improvement projects, rerating, collection system flow diversion, grant funding to fund upgrades, new codes and regulations for implementation of residential reuse. Mr. Zusi responded to questions.

**Funding Underground Service Lines for Low-Income Residents**
No discussion at this time.

**REPORTS**

**Financial Report**
Mr. Hamil reviewed the July financial report for the water and sewer fund. He mentioned a new line item to track labor costs that are capitalized for water and sewer. Water sales are comparable to the prior year at this point and slightly below our forecast. The bottom line reflects a positive $1,315,346 and debt service coverage is projected to be a strong 1.96 for the fiscal year.

Electric sales in kWh should exceed our forecast for FY 2015 by at least 3,500,000 kWh or about 1%. Fuel costs were over recovered by about $740,000 for the ten months ending July 1. The bottom line reflects $1,183,649 being taken from working capital. Extra spending is in the capital area for undergrounding as well as routine capital. Contracted crews working on undergrounding have been reduced to help us stay within our budgetary constraints. Debt service coverage is projected to be a strong 2.52 for the fiscal year.

Mr. Hamil announced that the electric rate increase will go into effect on October 1, which will allow the City to continue funding undergrounding at the current rate of $3.5 m per year.

**Usage Graphs Water, Wastewater**
Mr. Zusi recommended that graphs should be presented quarterly. The Board agreed. Unusual circumstances will be presented as needed.

**Electric Utility Report**

**Fuel Adjustment**
Mr. Warren reviewed the fuel adjustment for July.
