Planner Jeff Briggs explained the request to rezone the property which has the same ownership as the property of 1151 N. Orange Avenue. He stated the property is under contract and the new owners want to convert additional space for storage which requires additional parking. He stated the request is to rezone Lot 1 in the rear from R-3 to PL and that there were no objections from the surrounding neighbors. He stated that the Planning and Zoning Commission approved the request that would set the parking back 25’ from Minnesota Avenue so it will be consistent with what will eventually be the front yard/front setback of the future townhouses being built to the west. He further explained the plan for the wall to buffer the vehicles, the fence to screen the property from the residences, and stormwater retention. Planning Director Martin stated this fits in with the plan for Orange Avenue.

Public Works Director Jim English updated the Commission regarding the Federal Government interim rule to take over control of the signals. He stated that previously they did not believe the Federal Government would allow the whistle bans at all in the final draft but if they were in place prior to the final Federal ruling to take effect in December, the City would be grandfathered in. He recommended that the City whistle ban be made effective to allow this and to continue moving forward to make sure this happens in case the new regulation goes against whistle bans. He stated if it looks like you can have them, the City may not have to provide the funding by December as previously presented. He stated the ordinance needs to be in place before the FDOT will provide a study. Attorney McCaghren stated that at this moment there does not appear to be any final obstacle to doing this but that Mr. English cannot vouch for what the other entities involved will do.

CITY MANAGER’S REPORT:

a) Property selection for Florida Community Trust Grant Application.

Assistant Parks Director Cory Clarke introduced this item. He stated he met with the City’s consultant and that there are three potential properties that a grant could be submitted for which appear to score very well for possible funding. He stated the City has only contracted to submit up to two applications and that the deadline is May 5. He asked for direction as to which properties (Beloit Avenue property (Hamilton Place), the Clayton property on Howell Branch Road and Temple Trail or the Glenridge Elementary School property) he wanted the consultant to pursue. City
Manager Williams stated he spoke with Commissioner DeVane who suggested that the consultant provide the priorities on these properties and that staff has also recommended this.

Lindsey Stevens, Trust for Public Lands, updated the Commission on her contact with two of the property owners for the Beloit and Clayton properties. She announced that they have a signed contract between the Clayton family and the Trust for Public Lands so this property is secured from development for now. She stated she has been in contact with the Beloit Avenue property owner and that the property is still available. Ms. Stevens stated that all three properties score very well and likely will be funded under the grant. She suggested to see what properties are available and if there is a willing seller.

No public comments were provided.
