

Meetings

Improving your user experience

Due to numerous technical and security challenges experienced with the city’s previous agenda management system, the city has transitioned to CivicClerk Agenda Meeting Management. This new system offers users a more reliable and streamlined platform for all City Commission and Board meetings. As with any transition to a new platform, there will be changes to the user experience for the public to access agenda packets, minutes and videos.

For the best user experience, once you’ve entered the CivicClerk site, please click on the meeting calendar listing and then the “Meeting Overview” button on the top left. This button will bring you to the agenda which includes all necessary links to backup information for specific agenda items.

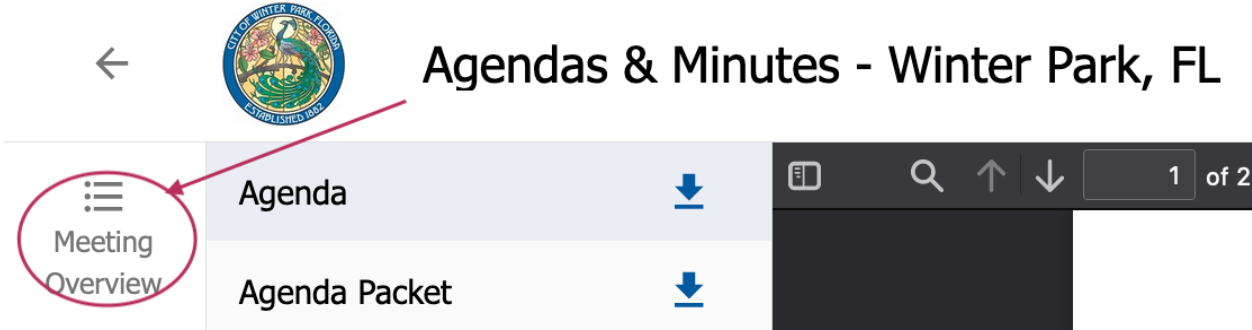

Wednesday
OCT 11
3:30 PM

City Commission Regular Meeting

City Hall Commission Chambers, 401 S. Park Avenue
