

Thank you for your interest in receiving information about the [Park Avenue Refresh project](#). Park Avenue is the city's crown jewel and the goals of this multi-year project are to:

- Maintain the charm & warm, inviting environment
- Enhance safety & aesthetics
- Strengthen infrastructure (electric, smart city & irrigation)
- Provide a consistent look for the Avenue's hardscape, landscape & architectural elements

You will receive updates via email when there is new information available to share as this project progresses. The project team's first meeting with the City Commission was January 23. During the work session, city staff and representatives from Stringfellow Planning & Design met with Mayor Sheila DeCiccio and City Commissioners to review conceptual designs for the overall vision of the Park Avenue Refresh Project. To watch a [recording](#) of the meeting or review the [presentation](#) visuals, please access the Project Information tab listed on cityofwinterpark.org/ParkAveRefresh. Based on the feedback offered at the work session, staff and consultants will review the Commission's recommendations and are expected to present their revised designs at an upcoming City Commission meeting in February for approval.

All Park Avenue Refresh updates and information will be accessible at cityofwinterpark.org/ParkAveRefresh. If you have any questions, please email ParkAveRefresh@cityofwinterpark.org.
