Park Avenue Refresh: Wall caps are installed and pots have arrived!

The Park Avenue Refresh Project continues to complete key improvements and begin adding the final touches to Phase 1 between Swoope and Garfield avenues.

New decorative pots have been installed along Park Avenue, adding pops of color while also serving an important safety function. These reinforced planters double as protective bollards, helping create separation between vehicles and pedestrian areas while complementing the charm of the Avenue. Seasonal plantings will fill these pots beginning the week of September 14.

The raised brick planter beds are also getting their finishing touches. New stone wall caps have been installed, and the beds are being planted with Liriope and other seasonal landscaping, adding fresh greenery and more color to the Avenue.

During the construction phases, Park Avenue and its businesses remain open for shopping, dining, and strolling. Our incredible local merchants, museums & restaurants are open, accessible & ready to welcome you.

All Park Avenue Refresh updates and information are accessible at cityofwinterpark.org/ParkAveRefresh. Please share this information with interested friends, colleagues, customers and/or guests.

If you have any questions, please email parkaverefresh@cityofwinterpark.org. Thank you for your patience as we work through the Park Avenue Refresh Project.

We're fluffing our feathers - something beautiful is coming.
