Winter Park storm information

DEBRIS PICKUP COMPLETE

November 1, 2022

In follow up to the notice sent out October 25, all debris pickup crews have completed their last and final pass of collecting loose debris throughout the city.

- For any large, bulky items, including fence, old furniture or broken appliances, residents must arrange for a special [Waste Pro bulk pickup](#) or dispose of during the [Fall Cleanup](#) scheduled in November.
- All other vegetative debris must be bagged, bundled or containerized for pick up on your regular yard waste day.

Thank you for your patience and cooperation during this recovery process from the impact of Hurricane Ian.
