WINTER PARK, FL – The Albin Polasek Museum & Sculpture Gardens is very pleased to announce our upcoming exhibition in collaboration with the Society of American Mosaic Artists (SAMA). *Mosaic Arts International 2025, Timeless Mosaics presented by the Society of American Mosaic Artists* provides a comprehensive exploration of mosaic art and its contemporary relevance within the 5000-year enduring history of mosaics.

From ancient civilizations to modern masterpieces, the history of mosaic art is a tapestry woven with cultural significance, artistic innovation, and enduring craftsmanship. The juried exhibit will include established and emerging artists, presenting the best in contemporary fine art mosaics from SAMA's diverse international membership.

Chosen works will celebrate artists whose work embody the diversity of the mosaic medium and its limitless applications encompassing fine art, architectural, community, and site-specific mosaics. This exhibition will be a key feature of the 25th annual SAMA conference, taking place from October 29 to November 1 in Orlando.

This year, SAMA (<http://www.americanmosaics.com>) is celebrating 25 years as a non-profit organization dedicated to educating, inspiring, and promoting excellence in the mosaic arts with its worldwide membership.

The exhibition will be on display August 26 – December 7, 2025 and will include artist talks, workshops, and educational lectures led by SAMA.

**About the Albin Polasek Museum & Sculpture Gardens:** Founded in 1961, the Albin Polasek Museum and Sculpture Gardens preserves the 200+ piece collection of world-renowned Czech-American sculptor Albin Polasek (1871-1965). Listed on the National Register of Historic Places, the museum offers guided tours of Polasek's home, studio, and sculpture gardens. Thousands of visitors each year come from all over the world to be inspired by Polasek's story of emigrating to the United States in 1901, becoming a celebrated artist, and continuing to create monumental works of art from his wheelchair after suffering a debilitating stroke at age 70. The museum is also home to the historic 1885 Capen House that was saved from demolition, renovated, and opened to the public in 2015.
