Polasek Museum Announces Upcoming Exhibition – On View December 16, 2025 – April 12, 2026
Renaissance Alchemy: Egg & Gold

WINTER PARK, FL –

The Albin Polasek Museum & Sculpture Gardens is pleased to announce our upcoming exhibition *Renaissance Alchemy: Egg & Gold* featuring the masterful paintings of North Carolina artist Sandy Thibeault on display in the Polasek Gallery December 16, 2025 – April 12, 2026.

The exhibition will take visitors on a journey back to the 15th century exploring the medieval techniques and alchemical processes of egg tempera paints and gold leaf used to create Thibeault's stunning paintings. These contemporary works embody traditional Renaissance aesthetics, emphasizing realism, perspective, and the potential of human accomplishment.

Using the same methods as Renaissance masters such as Giotto, Fra Angelico and Botticelli, Sandy Thibeault creates her own paints by combining egg yolk, water, and finely ground pigments. The artist also incorporates genuine gold leaf in her paintings employing the meticulous craftsmanship and techniques of ancient gilders.

The Albin Polasek Museum & Sculpture Gardens is honored to present Sandy Thibeault's first solo exhibition in Florida featuring her exquisitely luminous paintings celebrating the golden age of the Renaissance era.

The exhibition will be accompanied by community programs including artist lectures, demonstrations, workshops, and a free admission Renaissance Family Day on January 11, 2026.

A selection of the artwork will be available for purchase, with a portion of the proceeds benefiting the museum.

This exhibition is supported by Orange County Art & Cultural Affairs, United Arts of Central Florida, City of Winter Park, and Florida Department of State.
