PRESS RELEASE

Denning Drive Complete Street Project receives 2019 Transportation Transit Enhancement Award

WINTER PARK, FL, an internationally recognized, award winning city with multiple accredited agencies (September 27, 2019) The City of Winter Park's Community Redevelopment Agency (CRA) was recently honored with the Transportation Transit Enhancement Award for its project, "Denning Drive Complete Street," at the 2019 Florida Redevelopment Association (FRA) Awards.

The FRA Awards are presented each year at the association's annual conference and recognize outstanding achievement in a variety of categories, from annual reports to cultural enhancement. Entries are examined for effectiveness and completeness - including the narrative, supplemental material and compliance with submittal instructions. Judges are selected by FRA and represent various organizations and sectors from around the state.

The city began the Denning Drive Complete Street Project in October 2017. This project resulted in the transformation of Denning Drive from a four-lane road into an improved corridor offering a 10-foot-wide multi-use trail from Orange to Webster avenues, connecting neighborhoods and businesses along the route, enhancing the pedestrian and bicycle experience. The two-year long project was completed in three phases and included road milling, concrete median installation, asphalt paving, new irrigation, trees and landscaping, and installation of new decorative lighting.
