PRESS RELEASE

Virtual Forum “Transportation, Traffic & Mobility” for Orange Avenue Overlay

WINTER PARK, FL, an internationally recognized, award winning city with multiple accredited agencies (February 24, 2021) On **Thursday, March 4, from 6 to 7:30 p.m.**, the city’s [Planning & Transportation Department](#) staff in conjunction with [Kimley-Horn Planning and Design Engineering Consultants](#) will host a virtual public forum regarding transportation topics relating to the Orange Avenue Overlay District (OAO) project.

The virtual transportation public forum will include topics such as:

- traffic related to potential redevelopment
- travel patterns
- strategies to reduce congestion and improve safety
- multi-modal transportation within the OAO
- parking options
- funding strategies for transportation improvements

Orange Avenue is one of the city’s main corridors that serves as a gateway to our community. The 2016 *Vision Winter Park* process and the Comprehensive Plan, updated in 2017, both addressed the need to evaluate all city corridors, including Orange Avenue.

Please access the city’s official website to learn more about the [Orange Avenue Overlay project](#) and to [register](#) for the Transportation, Traffic & Mobility virtual forum.
