

HURRICANE MILTON

Winter Park storm information

YARD DEBRIS INFORMATION

Friday, October 11, 2024

BAGGED, CONTAINERIZED & BUNDLED YARD DEBRIS

- Waste Pro® will begin picking up **only** properly bagged, containerized and bundled debris (**not to exceed 50 lbs.**) on the following days:
 - Saturday, October 12
 - Wednesday, October 16
 - Saturday, October 19
- Up to 15 bags/bundles/containers (3 cubic yards) of properly prepared yard debris will be picked up.
- If you have more than 3 cubic yards of properly prepared debris, it may not be picked up all at once in order to service as many customers as possible.
- Depending on the amount of debris and the length of time it takes for disposal at the landfill, if crews are unable to finish their scheduled routes, they will begin picking up where they left off on the next scheduled pick-up day.
- Please use the proper lawn or leaf bags for disposal.

DIY SITES – DUMP YOUR OWN (BAGS ONLY)

- City residents can bring a max. of 15 debris bags (not to exceed 50 lbs. each) to the City Operations compound located at [1409 Howell Branch Road](#) on the following days between 9 a.m. to 5 p.m.:
 - Friday, October 18
 - Saturday, October 19
 - Sunday, October 20
- No contractors or commercial landscapers. City residents only.
- Please bring proof of residency: driver's license, valid ID or utility bill statement.

LOOSE & LARGE TREE DEBRIS PILES

- Any debris that does not fit in a bag or container, such as large vegetative debris, please **pile separately** along the curb for crews to pick up.
- Collection and removal of loose and large tree debris piles require contractors with special equipment.
- Because most contract debris crews are assisting with Hurricane Helene and harder hit areas of Hurricane Milton, recovery resources are extremely limited.
- Due to limited resources, **loose piles will take much longer** to pick up.
- DO NOT place debris near or on trees, poles, hydrants, meters or other structures.
- DO NOT place debris in the street or block storm drains, manhole covers or gutters.
- No construction debris will be collected.
