# TEMPORARY CLOSURE NOTICE

## Winter Park Train Station to be closed temporarily for termite treatment

**WINTER PARK, FL (January 8, 2026)** The Winter Park Train Station building, located at 148 W. Morse Blvd., is scheduled for drywood termite treatment. This process will require the station building to be closed after the last train leaves, Sunday, January 11, until Monday, January 19.

The entire train station building will be tented Monday, January 12, with removal of the tent scheduled for Tuesday, January 13. During treatment, the public is advised not to enter or approach the train station building property. If inhaled, the gas is extremely harmful to people and pets under the tent. Before reopening, the Winter Park Train Station will be thoroughly cleaned and ventilated for a safe return for employees and the public on Monday, January 19.

Scheduled stops for Sunrail® will not be impacted and the ticket kiosks on the west side of the train tracks will remain operational. During the treatment process, Amtrak® will not stop at the Winter Park Train Station. For more information, please contact [407-691-7831](tel:407-691-7831) or [facilitiesadmin@cityofwinterpark.org](mailto:facilitiesadmin@cityofwinterpark.org).
