## **FINAL PHASE OF DENNING DRIVE MULTI-USE TRAIL PROJECT TO BEGIN**

**WINTER PARK, Fla., an internationally recognized ICMA Excellence Award winner with accredited fire-rescue, police and parks & recreation agencies (January 28, 2019) –**

In October 2017, the city began the Denning Drive Multi-Use Trail Project. This project involves the transformation of Denning Drive from a 4-lane road into an improved corridor that will ultimately offer a 10-foot-wide, multi-use trail from Mead Botanical Garden to Webster Avenue; connecting neighborhoods and businesses along the route; enhancing the pedestrian and bicycle experience.

To complete the Final Phase of this project, the City of Winter Park Streets Division will be performing **construction upgrades and streetscape improvements to Denning Drive between Canton and Webster avenues beginning Monday, February 4, 2019.**

Traffic will be maintained and diverted into two single lanes, northbound and southbound, on the existing southbound lanes. This roadway construction is expected to take approximately two months (weather permitting). During the last two weeks of this final phase, Denning Drive will be closed to traffic to for the construction of the landscaped median islands, final curbing, installation of irrigation and sidewalks and repaving of the road. Local residents and businesses will be able to access their properties, as necessary.

Please expect delays, obey the construction signs, and use caution when driving in this area. For additional information, please contact the Streets Division at 407-599-3537.
