

## **ELECTRIC UTILITY POLE REMOVAL ON NORTH LAKEMONT AVENUE**

On Tuesday, March 12, 2019, the City of Winter Park Electric Utility Department will begin the removal of electric utility poles on North Lakemont Avenue from the intersection of Aloma Avenue to Pine Avenue. The removal of poles involves the use of a large crane on the north bound lanes. This undergrounding project is expected to be completed by early Saturday morning, March 16 (weather permitting).

A majority of the work will be done at night between the hours of 8 p.m. and 6 a.m. Traffic will be maintained on North Lakemont Avenue during construction, and all public and private driveways will be accessible.

We thank you for your patience and cooperation. If you have any questions or require special consideration, please call 407-325-4917.
